Senior BC Land Surveyor (Future Partner Opportunity)

Matson Peck and Topliss (MPT), founded in 1956, is one of British Columbia's well established land surveying companies. It and its associate civil engineering company, MPT Engineering Co. Ltd, are currently owned and actively managed by several land surveying and engineering partners. We provide professional survey services including legal, engineering and construction from small to large scale projects.

This position is intended for a motivated BCLS who is interested in applying their leadership and management skills to a diverse range of projects, and is seeking a clear path toward ownership and participation in the long-term management and growth of the firm.

Compensation: \$130,000 to \$150,000 annually, based on experience, qualifications, leadership potential, and business development contribution. Future partnership opportunities offer additional earning potential.

Key Responsibilities:

- Manage and deliver legal, engineering, construction, and geomatics survey projects.
- Lead and mentor field and office staff.
- Manage project schedules, budgets, and client relationships.
- Prepare proposals and provide professional advice to clients.
- Liaise with municipalities, regulatory agencies, and industry professionals.
- Support business development and strategic growth initiatives.

Requirements:

- Commissioned British Columbia Land Surveyor (BCLS).
- Strong technical, project management, and leadership skills.
- Excellent communication and client relationship abilities.
- Experience with modern survey technology and CAD software.
- Valid BC Class 5 Driver's Licence.

Ideal Candidate:

- Interested in becoming a future partner and business owner.
- Entrepreneurial, motivated, and leadership-oriented.
- Committed to helping grow and shape the future of the firm.
